PROGRESS IN PLANNING December 1993 issue

Edited by

D. R. DIAMOND
London School of Economics and Political Science, England

J. B. McLOUGHLIN
School of Environmental Planning, University of Melbourne, Australia

B. H. MASSAM
Department of Geography, York University, Canada

AIMS AND SCOPE

To provide a convenient and rapid outlet for extended papers drawn from recent research. New and innovatory aspects of planning are emphasized; the contributors are international in character and drawn from multi-national sources.

A wide range of interdisciplinary interests is covered: sociology (and in particular urban sociology), economic, rural, urban, transport and population geography, demography, environmental studies, architecture, socio-economics, transportation, highway and traffic engineering, social science and administration, political science and public administration, operational research, research and development, long-range planning and technological forecasting, computer and management information systems and management studies.

Progress in Planning covers the following subject categories:

Transport Planning
Planning Theory and Method
Regional and Economic Planning
Third World Planning
Industry and Employment
Physical, Urban and Environmental Planning
